Mr. Harold Weisberg
Hyattstown, Md.

Dear Mr. Weisberg:

I've heard you twice on "Nite Talk" Phila – WCAU radio – and now I must have your book. I saw it reviewed in July 2nd issue of National Guardian. Last Friday nite I listened & you & Jack McKinney till 2 a.m. & then stayed on for the re-play for first hour from which I had missed. So glad I did – to hear about your interest in Geese.

It is most interesting & heartening to know that you have heard from all over the country. You can add Vermont to your list – I live there in Burlington but am working here at Lake George for the summer.

Sincerely & with gratitude for the job you have done –

(Mrs) Helen H. Mac Martin

P.S - Hope you mention in your book the meeting of three people before the assassination : Ruby, Dipper + one other. (Mark Lane referred to this) Also - the bullet hole in the windshield. Im heard nothing more about that. Had thought that one shot must have come from the overpass ; Friday nite I believe you said you thought not, that shots all came from the "grassy knoll"
